-
- NSS VOLUNTEER: Done an RCCE (Risk Communication And Community Engagement) project in Visakhapatnam city in 2020 which is conducted by UNICEF- Hyderabad at the time of COVID-19.
 - NSS VOLUNTEER special camp program in 2020 conducted by Andhra university.

PROJECT

Quantitative analysis of carbohydrates and proteins in green sea weed (Caulerpa taxifolia)

- Caulerpa taxifolia, an invasive seaweed, has spread extensively in the Mediterranean since 1984, encompassing approximately 131 km² of benthos across six countries by 2000. Quantitative analysis conducted in Rushikonda Beach Visakhapatnam, demonstrated higher levels of carbohydrates compared to proteins in Caulerpa taxifolia, suggesting its potential as a dietary supplement for addressing nutrient deficiencies and potential therapeutic applications.

LANGUAGES

- English Full Professional Proficiency
- Telugu Full Professional Proficiency

INTERESTS

- Web browsing and learning new things
- Cooking, listening to music.
